

## IMPORTANT !!

When you work on Brake-System, especially on  
MASTERCYLINDER / BRAKE CALIPER,  
special knowledge or skill is required.

If you do not have it, repair work should be made by the  
qualified professionals. Brake System is very important  
for your safety driving. Repair-work should be made with  
the special tools designed for it. In order not to give  
damage or hurt any part of Brake System, please strictly  
follow the Instruction of your Service-manual or Repairbook.  
If you are not sure, leave the operation to the professional  
person at the workshop.
